Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-2, 7-9, 14-16, 21 are rejected under 35 U.S.C. 102(b) as being anticipated by Majors [U.S. Patent #5,581,475].

As per claims 1/8/15, a method/apparatus/computer program product [Abstract] comprising [taking the language of claim 1 as exemplary]: for each net in said circuit, identifying each branch point in said net [column 3, lines 7-20; column 23, lines 64-67]; calculating a current density at each said branch point of said net [column 4, lines 22-38; column 24, lines 1-5]; determining whether or not said current density exceeds a limit value [column 4, line 38-column 7, line 50; column 24, lines 6-15]; and revising a wiring which affects said current density in order to reduce said current density if said current density exceeds said limit value [column 7, line 51-column 8, line 3; column 24, lines 16-25]. As per the language of claim 2 as exemplary, wherein said limit value is determined to prevent said electro-migration [column 4, lines 48-51]. As per the language of claim 7 as exemplary, further comprising tracing said net to obtain said branch [column 5, lines 21-37].

Allowable Subject Matter

Claims 3-6, 10-13, 17-20 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

Applicant's arguments with respect to the claims have been considered but are moot in view of the new ground(s) of rejection. Applicant's amendments have overcome each of the art rejections in the previous office action.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Pillage et al. [U.S. Patent #5,379,231] disclose vectorizing tree branches to analyze voltage and current of resistive circuit elements.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
